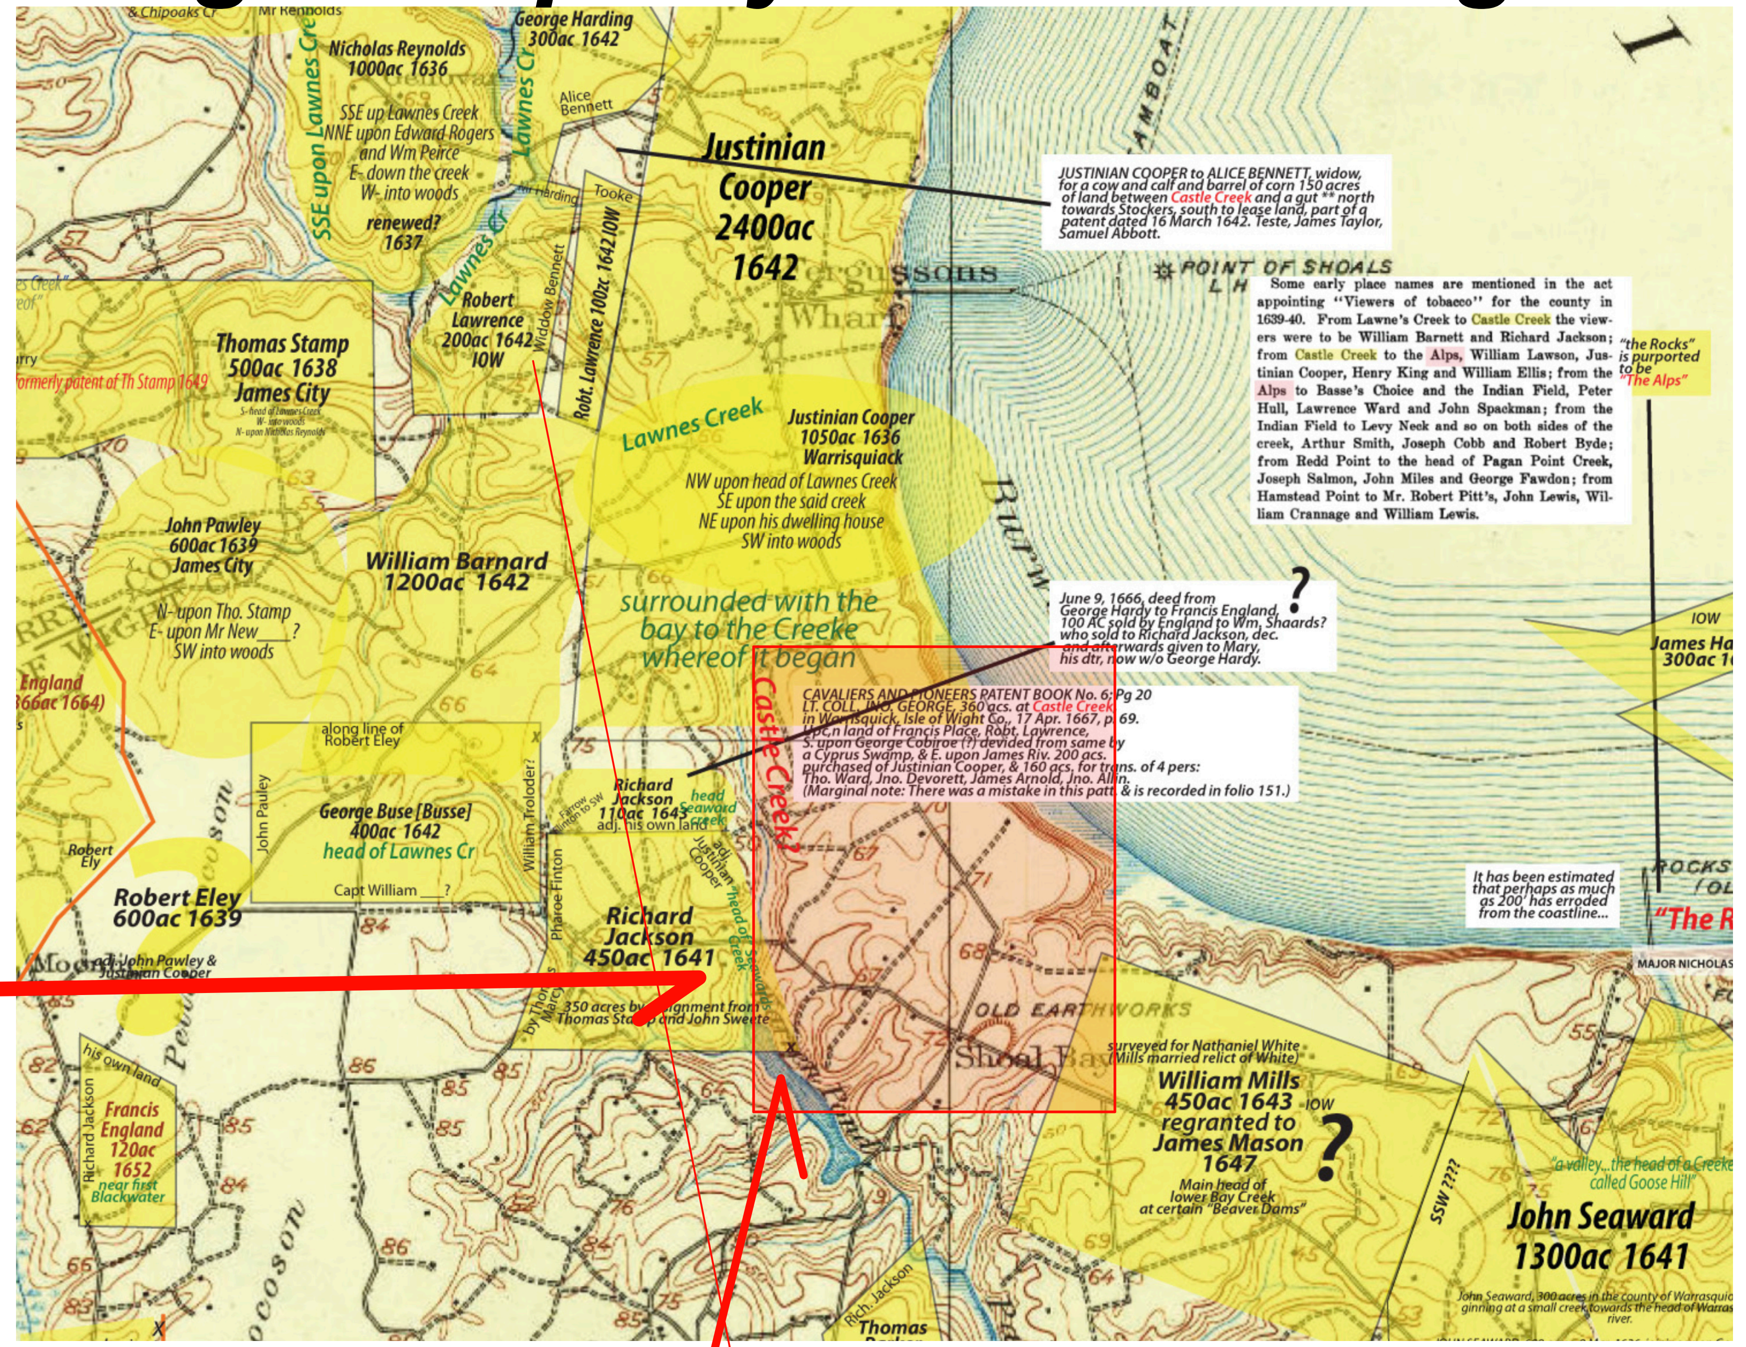
John George Property in Isle of Wight



The Isle of Wight County Records shown in the William and Mary Quarterly show that Justinian Cooper and Ann his wife conveyed to John George the Robert Bennett tract and the Quarter tract of 200 acres, part of a patent of 2000, March 16, 1642, by deed dated April 25, 1642.

A second reference related to a deed on the same date for a separate, adjacent 350 acres apparently for the benefit of John George's son, Isaac, also appears in these records.

John George may have settled here as early as 1642

note that the Robert Lawrence 200 acres above references the "widow" Bennett... that is probably the land referred to here
