This "incorrect" reference was in the back of my mind and I attempted to look it up...

It does not exist; John Brantley never sold land directly to John Person. My quest was to tie a sale by John Brantley (while he was in Granville) to his former land (in Isle of Wight)

The result is this analysis, which may explain where the mix-up came from...
This Calthorp deed does evolve full circle back to John Person. Person was involved in numerous deeds in isle of Wight but usually as a witness only.
